

Healthy Community Framework

What is a Healthy Community?

A Healthy Community provides for the following through all stages of life:

MEETS BASIC NEEDS OF ALL

- Safe, sustainable, accessible, and affordable transportation options
- Affordable, accessible and nutritious foods, and safe drinkable water
- Affordable, high quality, socially integrated, and location-efficient housing
- Affordable, accessible and high quality health care
- Complete and livable communities including quality schools, parks and recreational facilities, child care, libraries, financial services and other daily needs
- Access to affordable and safe opportunities for physical activity
- Able to adapt to changing environments, resilient, and prepared for emergencies
- Opportunities for engagement with arts, music and culture

QUALITY AND SUSTAINABILITY OF ENVIRONMENT

- Clean air, soil and water, and environments free of excessive noise
- Tobacco- and smoke-free
- Green and open spaces, including healthy tree canopy and agricultural lands
- Minimized toxics, green house gas emissions, and waste
- Affordable and sustainable energy use
- Aesthetically pleasing

ADEQUATE LEVELS OF ECONOMIC AND SOCIAL DEVELOPMENT

- Living wage, safe and healthy job opportunities for all, and a thriving economy
- Support for healthy development of children and adolescents
- Opportunities for high quality and accessible education

HEALTH AND SOCIAL EQUITY

SOCIAL RELATIONSHIPS THAT ARE SUPPORTIVE AND RESPECTFUL

- Robust social and civic engagement
- Socially cohesive and supportive relationships, families, homes and neighborhoods
- Safe communities, free of crime and violence

This framework was developed by California's Health in All Policies Task Force, based on input from a wide variety of state agencies, community residents, and local leaders across the state.

This flyer looks so idyllic; however, the reality is that a *Community Health Index* does not exist and an objective, “big data” cloud-based *Electronic Reporting System* to measure and compare community health scores does not exist either.

You can be part of fulfilling this national gap which has been in demand since the 1960s. How? By collaborating with our world-class organizations and people. Please read on!

Community Health Institute

Key faculty at UC Berkeley, Stanford, and UC San Francisco and key executives and Medical Doctors of Public Health Institute, Kaiser Permanente amongst others have agreed to collaborate to create a *Community Health Index* under the lead of the *Enterprise 501c3*, a California non-profit, IRS-approved 501c3 public benefit corporation. The end result of this collaboration will be donated to the public domain and will be available to the public at no charge.

Concurrently, a “big data”, cloud-based, mobile-app reporting system, *the Community Health Empowerment Information Reporting System (“CHEIRS”)* is being built by *CHEIRS Inc.*, a “software-as-a-service” start-up company. *CHEIRS* will provide “Community Health Scores” to the businesses, professionals, governments, foundations, non-profits, NGOs, hospitals, cities, counties, towns, villages and individuals (“putting big data in the hands of the people”).

Knowledge is power! Objective data changes lives!

“Pretotype” with examples

A profitable “big-data”, cloud-based “Software as a Service” business model will insure on-going excellence in the design, delivery and guaranteed “current” and “practical” usefulness of the data reported.

Collaborators with Enterprise 501c3 nonprofit:

UC Berkeley School of Public Health:

- **Richard Sheffler Ph.D.**, Distinguished Professor, Health Economics and Public Policy, Director, Nicholas C. Petris Center, Director, Global Center for Health Economics and Policy Research, Board of Directors of the Robert Wood Johnson Scholars in Health Policy Research.
- **Linda Neuhauser DrPH, MPH**, Clinical Professor, Community Health and Human Development, Co-Principal Investigator, Health Research for Action.
- **S. Leonard Syme Ph.D**, Professor Emeritus, Epidemiology and Community Health, co-Principal Investigator, Health Research for Action.

Stanford University

- **Ahmed Calvo M.D.** Director, *National Fellowship on Health Leadership and Public Service*, Haas Center for Public Service, Stanford University and Senior Medical Officer, US Department of Health and Human Services
- **Hemalee Patel M.D.** - Stanford School of Medicine

UC San Francisco

- Richard Sheffler Ph.D. see above

Public Health Institute

- Mary Pittman Dr. PH – President of the Public Health Institute
- Carmen Rita Nevarez MD MPH, Vice President, External Relations and Preventive Medicine Advisor, Director Center for Health Leadership and Practice.

Kaiser Permanente

- John Mattison M.D., Chief Medical Information Officer, Assistant Medical Director, Southern California Permanente Medical Group

Enterprise 501c3, a California non-profit corporation:

- Brian Donohue J.D., M.B.A. - President, directed UC Berkeley's campus-wide Business Contracts Office for 15 years, taught Intellectual Property law for 18 years
- Bryan Balch – 25 years in executive positions in the community non profit industry
- Bob Anzt – 25 years in sales and coaching Mark Batson Baril – President and owner Resologics Dispute Resolution - adviser
- Sean Donohue – 15 years in teen and family coaching
- Candace Morton – 15 years in HR solutions
- Mei Lin Fung – President, California Health Medical Reserve Corps - adviser
- Mike Hannigan – President and owner of *Give Something Back*, office stationer - adviser

CHEIRS Inc. – a “big data”, cloud-based, software-as-a-service start-up creating the CHEIRS system:

- Brian Donohue J.D., M.B.A. (Information Technology), taught Intellectual Property Law for 18 years at UC Berkeley, formerly Bank of America Technology Center, Sperry Univac, US Army Captain Finance and Comptroller Information Systems Command
- Vladimir Starov, Ph.D. Chemical Physics, serial technology entrepreneur
- Dave Kolsom C.P.P. – 25 years in Strategic Sourcing at UC
- Steve Schmedinghoff – 40+ years data integration Lawrence Livermore Laboratory
- Valerie Landau – VP Data Streamers, – mapping outcomes
- Malaga Smith – owner of a web-based graphics design company
- Jay Jayaprakash – UC Berkeley Computer Science and Mathematics student

Students and Private Businesses – “To raise all boats”

In brief, the Institute is housed at the David Brower Center across the street from the UC Berkeley campus which is the cauldron of students, teachers, private businesses, Enterprise and CHEIRS staff all endeavoring to “raise all boats” in the new industry of *Community Health Empowerment*.

This Executive Summary is to introduce our collective efforts and generate interest in supporting/funding the *Enterprise 501c3* which is IRS 501c3 tax-deductible corporation as well as CHEIRS Inc.
